

Quality and Food Safety Policy

ED&F MAN PORTUGAL

EDF Man Portugal it is aware that operations inherent to his business activity can have impact in products safety and therefore we are doing it in a controlled and efficient way.

It is our goal in Quality and Food Safety to deliver products to our clients according with his requisites and applicable legal requirements, ensuring the satisfaction of our customers needs exceeding their expectations.

We're compromised with ethically responsible and sustainable business practices.

While part at the food chain we recognize that Food Safety results from structured application procedures evidenced by:

- Conformity and leadership
- Efficient risk management
- Harmonization and efficiency of Quality and Food Safety management systems
- Awareness raisin that translates in the warranty that our products are safe and with expectable quality
- To promote training of all those involved in management responsibilities and in the food safety system in particular in applicable legislation and basic rules of food hygiene

We recognize the importance of preserving the environment by developing organizational management actions that reduce environmental impact and promote sustainability
